Espace presse HAROPA PORT achieves record results in 2025 and accelerates the global rollout of its green corridor strategy

Relevance : 100%

HAROPA PORT's operations were shaped by an extremely unpredictable international environment, marked by the introduction of new US customs tariffs, the reshuffling of shipping line Alliances and strategies, and the normalisation of routing via the Cape of Good Hope instead of the Suez Canal route.

News AIDAnova: first shore power connection in Le Havre for this next-generation cruise ship

URL of the page:

<https://www.haropaport.com/en/recherche>

Relevance : 100%

On 10 December 2025, AIDAnova made another call to Le Havre - but this time it marked a major first: thanks to the electrification of the Pierre Callet berth at the cruise terminal, the vessel was connected to onshore power supply throughout its stay. HAROPA PORT is thus continuing to find ways to...
