

Professional trade show Breakbulk Europe

From 16 June to 18 June

In June 2026, HAROPA PORT will be present at Breakbulk Europe in Rotterdam, one of the major international events dedicated to heavy cargo, breakbulk, and industrial projects.

Highlight the strengths of the Seine axis

At a shared stand with several co-exhibitors, HAROPA PORT will showcase the performance and competitiveness of the Seine axis in handling heavy cargo and industrial projects. As a major player in this sector, the port relies on:

- right infrastructure (35 dedicated berths),
- a wide range of vertical and horizontal **handling equipment**,
- a **dedicated "exceptional packages" working group** to handle all types of heavy cargo.

The HAROPA PORT stand will provide an ideal setting for professional meetings and business appointments. During the 2025 edition, the stand welcomed over 250 visitors (+47% vs. 2024) and generated around thirty client meetings.

A must-attend event

Breakbulk Europe brings together each year the key players of the logistics and industrial chain - shippers, freight forwarders, shipping companies, and specialized service providers – and serves as **a strategic platform to grow business and strengthen partnerships**.
