

conference Global maritime week

From 23 September to 25 September

HAROPA PORT will be present at the Global Maritime Week, which will be held in Rotterdam from 23 to 25 September 2025. This major event brings together key maritime players every year to discuss issues related to the future of global maritime logistics.

The 2025 edition will focus on three key themes: sustainability, safety and digital innovation in maritime transport.

HAROPA PORT participates in a round table discussion on September 24 at 2.30pm

Jérôme Besancenot, Digital transition project manager at **HAROPA PORT**, will speak during the session entitled « **Showcase of most advanced digital & smart ports worldwide** ».

An opportunity to discuss:

- the major challenges associated with digital transformation
- the integration of digital solutions to optimise energy efficiency, sustainability and the overall performance of port activities.

HAROPA PORT's strategy centers on creating a Green Digital Corridor, leveraging cutting-edge digital tools such as IoT, AI, 5G, and blockchain to optimize logistics, enhance traceability, and accelerate decarbonization.
