HAROPA PORT and the port of Kribi are committed to developing their relationship in order to promote trade between France and Africa. This agreement is based on several key points.

#### **HAROPA PORT will provide its expertise and assistance in:**

- development of multimodal transport;
- development of tools for measuring and steering port performance;
- ecological transition and sustainable development;
- territorial anchoring, attractiveness and deployment of a port-city, thanks to the development of the circular economy and innovative projects;
- smart corridor to facilitate trade.

#### **Exchange of experience and sharing of best practices on:**

- port digitalization;
- improving logistics performance;
- port safety and security;
- support for the implementation of solutions adapted to each growth sector, particularly for the port of Kribi;
- Quality, Hygiene, Health and Safety at work.

Staff training are also on the agenda.

Moreover, the two ports want to identify **investment opportunities for French and Cameroonian companies in each port and their interland.**
