

High-quality ship services

The key advantages of HAROPA PORT for ship reception: thanks to the mutually complementary areas of expertise of the ports of Le Havre, Rouen and Paris, HAROPA PORT is able to provide holistic solutions in terms of port services and facilities, irrespective of vessel size.

Published on 22/06/2023 - Updated 21/03/2024

HAROPA PORT has been able to establish effective partnerships in each port area between the Harbourmaster's Offices and specialist firms operating 24 hours a day all year round to offer customised services to ships.

Operating on the front line for ship services, **the Harbourmaster's Office is the first point of contact**. The true nerve centre for the port, it provides ship reception and port traffic regulation, surveillance and protection of port facilities and handles all emergency, safety and security procedures. It also has a major role in providing information to all users of the port.
