

Ile-de-France river stopovers

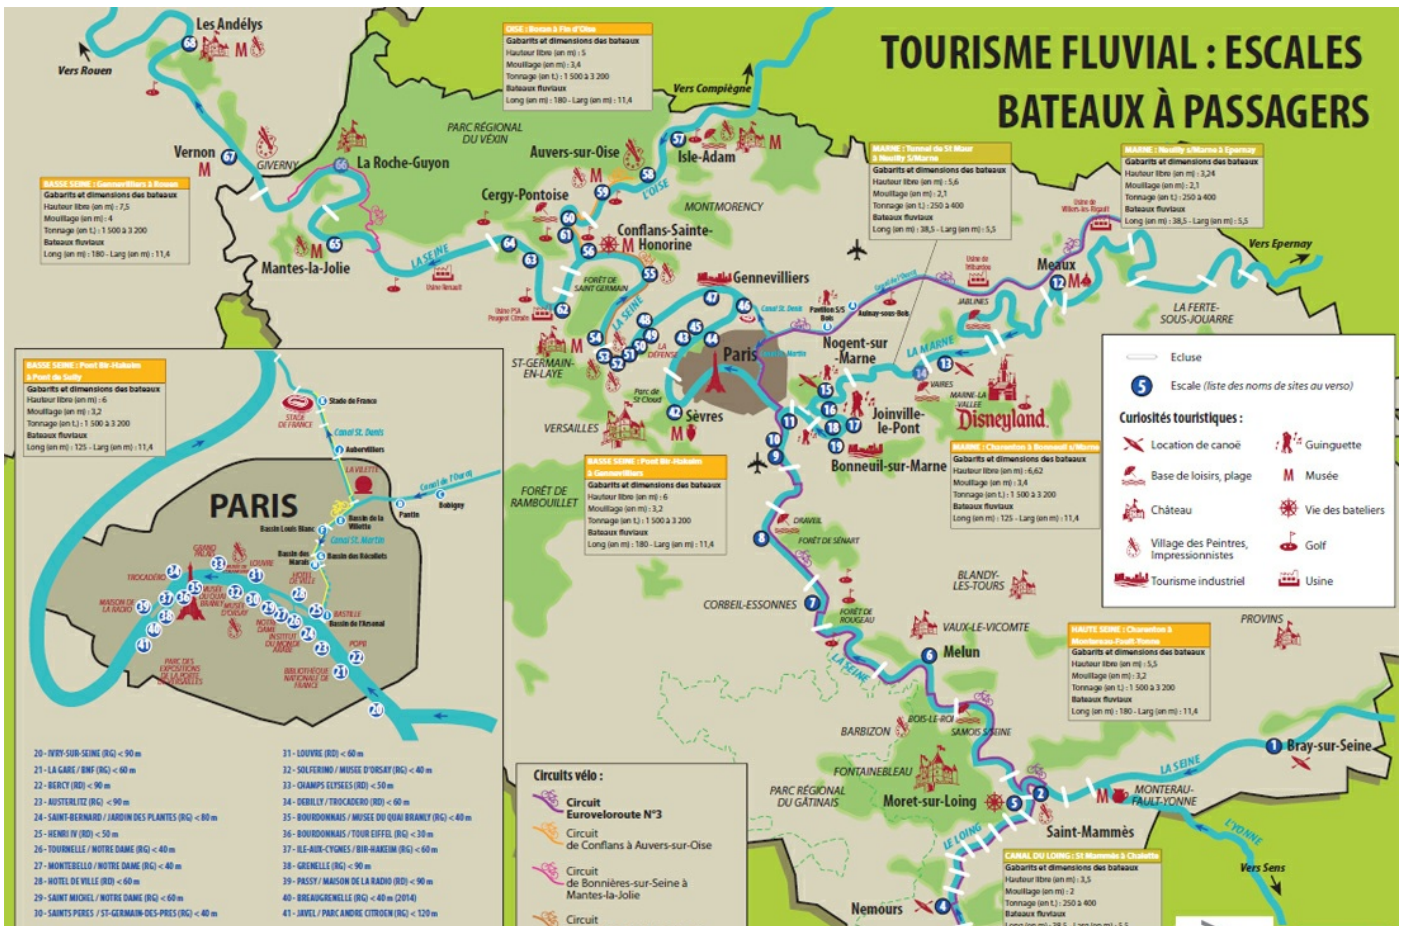

The Seine, a major tourist asset in Ile-de-France

- Territorial Department of Paris -
Published on 12 February 2019

HAROPA - Ports de Paris manages the reception of passenger transport, entertainment and leisure activities through a network of 34 ports of call on the Seine, 22 of which are in the Paris harbour

These public ports of call, managed on a timeshare basis, enable many transport companies to develop their activities from different sites throughout the Ile-de-France
