

Logistics and distribution

HAROPA PORT, a hub of logistics expertise, the solution to all your projects

Published on 15 July 2021

HAROPA PORT, the 1st logistics hub in France*:

- › 2.7 million m² of warehouses in service,
- › 900,000 m² of warehouses available immediately or in the short term,
- › 895 ha of land available for medium- and long-term use.

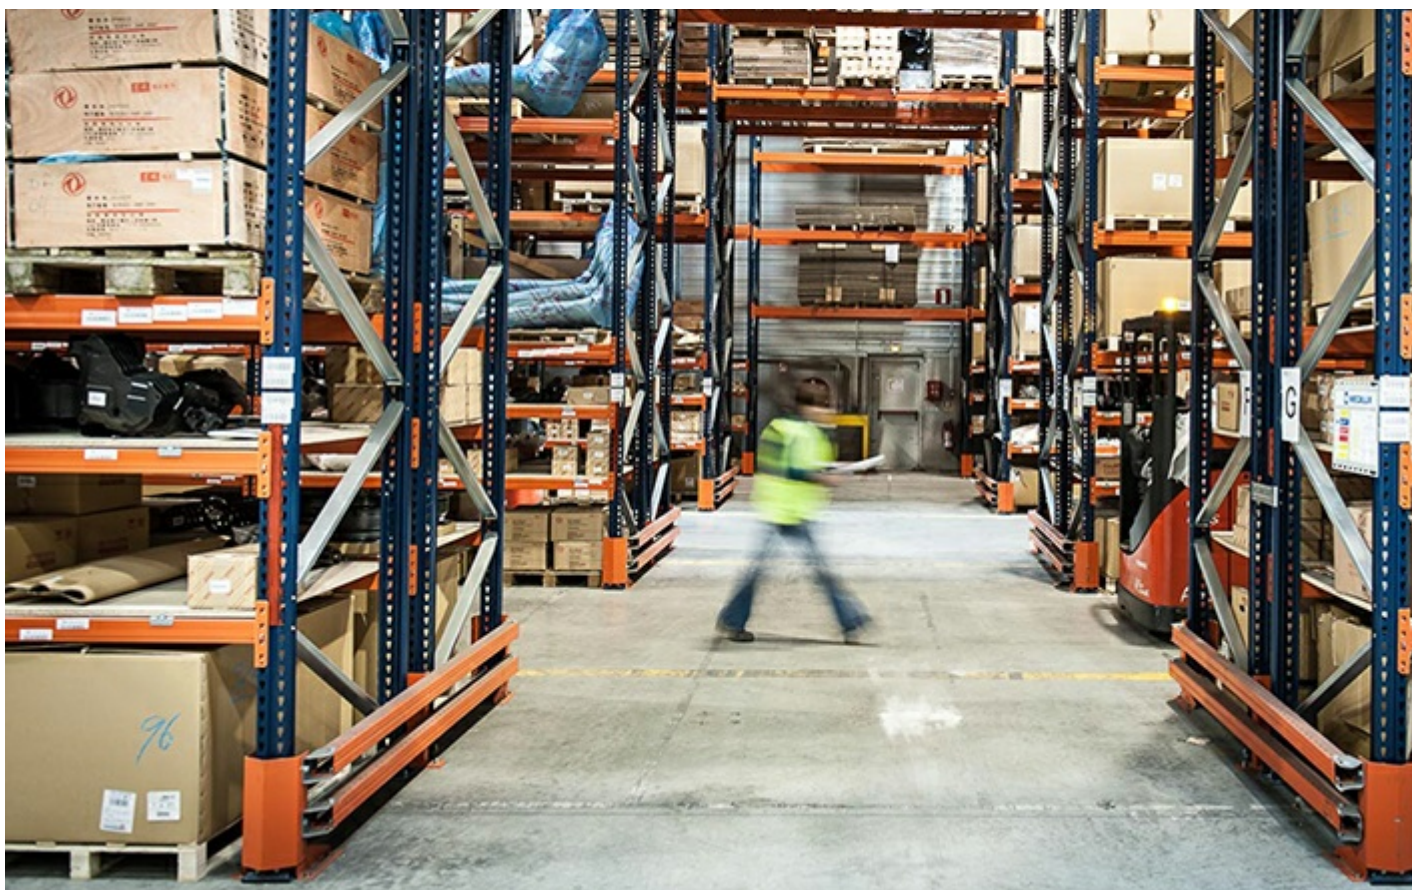

- › Multi-sectoral expertise: manufactured products, Wood, Chemicals, Exceptional packages, E-commerce, Large retailers, Toys, Luxury and cosmetics, Food products, Pharmaceuticals, Retail, Second-hand, electric & new vehicles and Automotive equipment etc.
- › A wide range of value-added services
- › A land and real estate offer that adapts to all your projects

HAROPA PORT, the solution for all your logistics projects

The advantages for your establishment in or near a seaport area:

- › Exceptional HAROPA PORT maritime offer, the 1st north-west European port complex reached by imports and the last for exports;
- › Proximity to the multimodal terminal:
- › Possibility of buffer stocks on the multimodal platform,
- › Availability of empty containers, container services (cleaning etc) ;
- › Competitiveness, availability and qualification of the local logistics workforce;
- › Attractive taxation;
- › Accessibility: non-congestion of ports and roads
- › Dense fabric of industrial and logistics players located on the Seine Axis
- › Reduction of container detention costs & optimization of parking franchises
- › A single centre for all goods controls (PIF - PEC - Customs)
- › Safety-Security: 134 dedicated agents -> unique service in France and 17 restricted access zones spread over the entire port area (preventive checks and searches, 24/7 patrols, remote control and video protection)

Logistical and operational assets

- › Diversity of the multimodal transport offer
- › Customs and tax facilities
- › Expert support: personalized advice to HAROPA PORT in partnership with ISEL and CRITT
- › A wide range of implementation aids
