## Terminals in Rouen

---

- › Europe's leading cereal exporter and European agro-industrial hub. In addition, several terminals are dedicated to the handling and storage of all types of solid bulk: fertilizers, chemical and petrochemical products, snow removal salts, building materials, attapulgite peat, pumice stones, bauxite biomass, wood energy...
- › Storage capacities: 900kt dedicated to the export of cereals, and 400kt for other agricultural products. High-capacity covered surfaces and platforms for other products on specialized terminals.
- › Easy distribution thanks to multimodal network: road, rail, waterway
- › Honfleur terminal,
- › Rouen Quevilly terminal,
- › Bassin aux Bois terminal,
- › Western terminal,
- › Petit Couronne bulk terminal,
- › Grand Couronne solid bulk terminal.

## Terminals in Le Havre

URL of the page: <https://www.haropaport.com/en/solid-bulk-terminals>
