

Cruise, Energy transition Work starts on electrical power supplies to ships at berth at the Le Havre cruise terminal

The start of work has just been declared on the provision of electricity supply connections for ships at berth at the Le Havre cruise terminal in the presence of the stakeholders: the Prefectures for the Normandy Region and the Seine-Maritime département, Le Havre city hall, the Le Havre Seine Métropole urban and district federation, Le Havre Croisières public interest grouping (GIP), Normandy's regional government, ENEDIS and VINCI Energies - Actemium, the authorised representative of the grouping awarded the public procurement contract. The start of the construction comes after work to extend the public grid carried out by ENEDIS as project owner.
