

event sMArt Green Ports as Integrated Efficient multimodal hubs (MAGPIE) Start Conference

As fellow port, HAROPA PORT joins the MAGPIE Start Conference organized at Rotterdam on Thursday 10th March.

Published on 28/02/2022 - Updated 21/08/2023

MAGPIE has the ambition to force a breakthrough in the supply and use of green energy carriers in transport to, from and within ports.

By demonstrating and implementing smart solutions in the realm of digitalization and automation to contribute to the decarbonization of port related transport.

HAROPA PORT is proud to be part of this project which is in line with the Innovative objectives of the leading french Port. It also participates in increasing the place of the Seine axis Major River & Sea Port on the European and international port scene.
