

HAROPA PORTS FLASH Info

Your logistics solution in Europe

WITH PCS S)ONE, THE “SMART PORT” POSITIONING OF HAROPA IS BECOMING REALITY

DIGITAL CALLS 4.0 IN OPERATIONAL REALITY AT THE PORT OF LE HAVRE

The call of the MAERSK Hanoi on 2 July 2018 at the TMSC terminal of Port 2000 and that of the MARFRET Guyane at the 'Terminal de France' of GMP on July 3rd, opened a large series of calls managed in a fully dematerialised and secure mode with HAROPA.

MAERSK HANOI

MARFRET GUYANE

With S)ONE, the 4th generation of PCS by the world leader SOGET, ship's agents, terminal operators and forwarding agents have dealt with all their operations with the most advanced digital applications.

> A real common success:
over 1,100 professionals of the maritime and logistics community of the Seine corridor trained by SOGET and an E-learning module accessible via SOGET portal www.sogetone.com

> The predictive analysis and Business Intelligence provided by S)ONE contribute to the attractiveness of the ports along the Seine corridor and to the competitiveness of its logistics solutions.
