

Leading port for agricultural and agri-food products

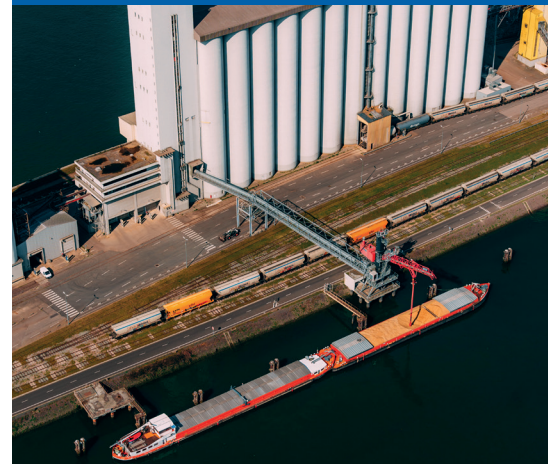

THE ADVANTAGES

- Premium service offering
- Leading grain export hub
- Fast loading
- Competitiveness
- Expertise

POSITIONNING HAROPA PORT | ROUEN

- **France's leading port for cereals, fertilizers and agri-food industry products:** an average of 8 million tonnes of cereals exported per season and 4 to 5 million tonnes of agri-food products.
- Western Europe's leading grain export hub: **50% of French grain maritime exports** and on average 15.5% of EU grain exports to non-EU countries.
- **Import-export hub directly connected** to France's largest agricultural production area.

LEADING PORT IN WESTERN EUROPE FOR CEREALS

- Port infrastructures located at the heart of France's main cereal-producing regions
- Comprehensive service offering and operator expertise: drying, sorting, cleaning, pest control, inspection, etc.
- Best loading rates in Europe — no waiting time
- Fully integrated multimodal transport solutions: rail, river, and road

Storage capacity: 1 million tonnes quayside for cereal exports.

Loading capacity: over 120,000 tonnes/day.

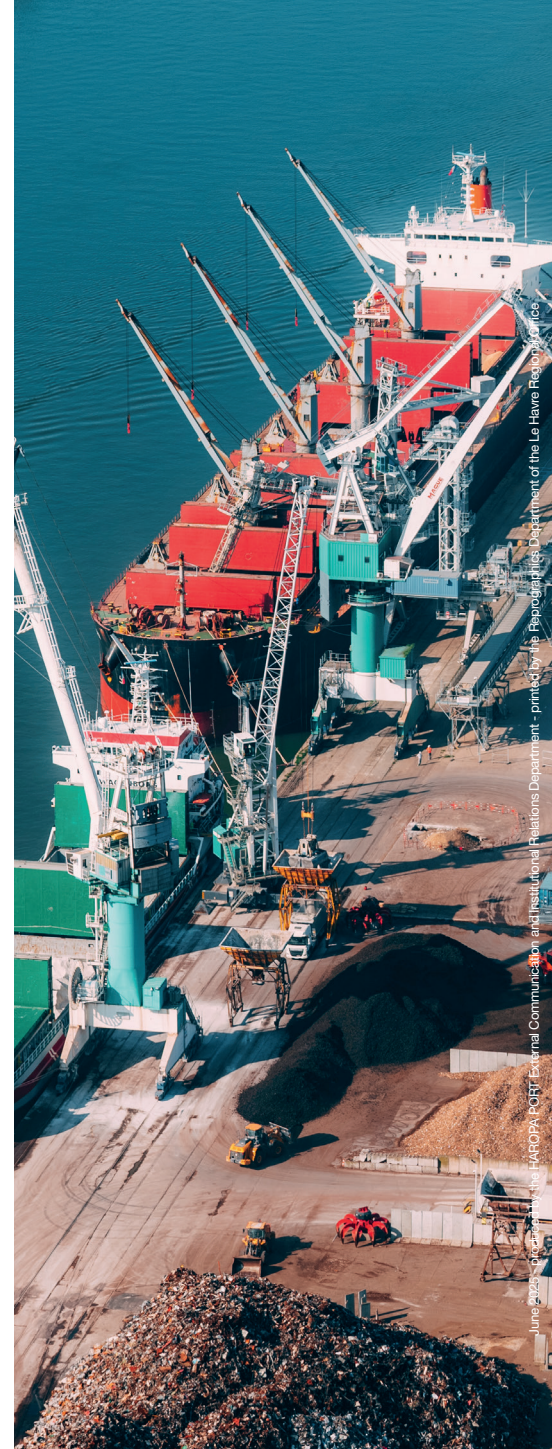

Grain terminals: 4 operators across 6 terminals : Groupe BZ, Sénalia, Simarex (Natup), Socomac (Soufflet Négoce by InVivo).

FRANCE'S LEADING PORT FOR THE AGRI-FOOD INDUSTRY

- **Diverse range of activities and products:** malt, cocoa, coffee, animal feed, semolina, oilseeds, protein crops, sugar, flour, vegetable oils, biofuels...
- A **dynamic industrial ecosystem** located directly on the port estate
- Both **import and export** operations
- **All types of packaging:** bulk, sacks, big bags, containers, isotanks...
- **Industrial processing facilities:** Barry Callebaut, Cargill, Ferrero, Grands Moulins de Paris, Lustucru, Moulins Soufflet, Nutriset, Panzani, Robust, Saipol, Segafredo, Soufflet Malt, Sucre Océane, Tereos... all have production sites on or near HAROPA PORT domain.

FRANCE'S LEADING PORT HUB FOR FERTILIZERS

- **2 production plants** located on HAROPA PORT's estate: LAT Nitrogen and Tessenderlo.
- Comprehensive **logistics services:** sieving, screening, blending, coating, bagging, storage, etc.
- Strategically located near **major agricultural regions using fertilizers.**
- **6 specialized terminals** handling solid and liquid fertilizer logistics: Dockseine, LAT Nitrogen, Sea-Invest, Sea-Tank, Surveyfert, Tepsa.
