

New large-scale land development at the port of Bruyères-sur-Oise

HAROPA PORT has issued a call for declarations of interest for a 5.8 hectare plot of land ideally located at the port of Bruyères-sur-Oise (Val d'Oise).

A site with exceptional features

A non-divisible plot covering a total of 5.8 hectares with a 9,900 sq. m. building on the site

Several options for multimodal access

- river access to the Oise river via a container terminal and a shared-use quay
- rail access via a rail terminal
- road access: close to Paris (45min), via the A16 motorway, Cergy-Pontoise, Roissy

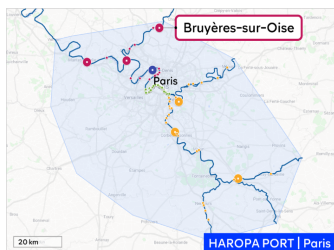

Potential synergies with local actors from the port platform and neighboring business park with its diversified activities (construction, steelmaking, logistics, recycling)

► In accordance with its development strategy, HAROPA PORT wishes to prioritize an activity linked to the energy and ecological transition and generating logistics river and/or rail flows.

Bruyères-sur-Oise port

- 58-hectare multimodal platform with high-quality waterway, rail and road links
- Located north of Paris, on the route of the upcoming Seine Nord Europe canal
- A container terminal and a shared-use quay
- A rail terminal
- Around 250,000 tonnes of river traffic by 2022

Provisional timetable

- Deadline for submission of applications in digital form: **February 15, 2024**
- Issuance of call for project proposals: **1st semester 2024**
- Projected date for final award: **2nd semester 2024**
