

France's leading port for the chemical and energy industries

OUR POSITIONNING

- **France's #1 port for energy and biofuels**
- Europe's #2 port for **petrochemicals**
- Europe's #2 largest **chemical industry** cluster
- Europe's #1 producer of **fertilizers**
- **#1 regional industrial export sector** in France
- France's #2 region for **medicinal chemistry**
- **Storage capacity:** 3.5 million m³ crude oil + 2.4 million m³ petroleum products + 1.4 million m³ other chemical products + 0.1 million m³ gas
- **Over 15,000 direct jobs**

THE ADVANTAGES

- Chemical industry cluster
- New energy solutions
- Decarbonization expertise
- Dangerous goods management

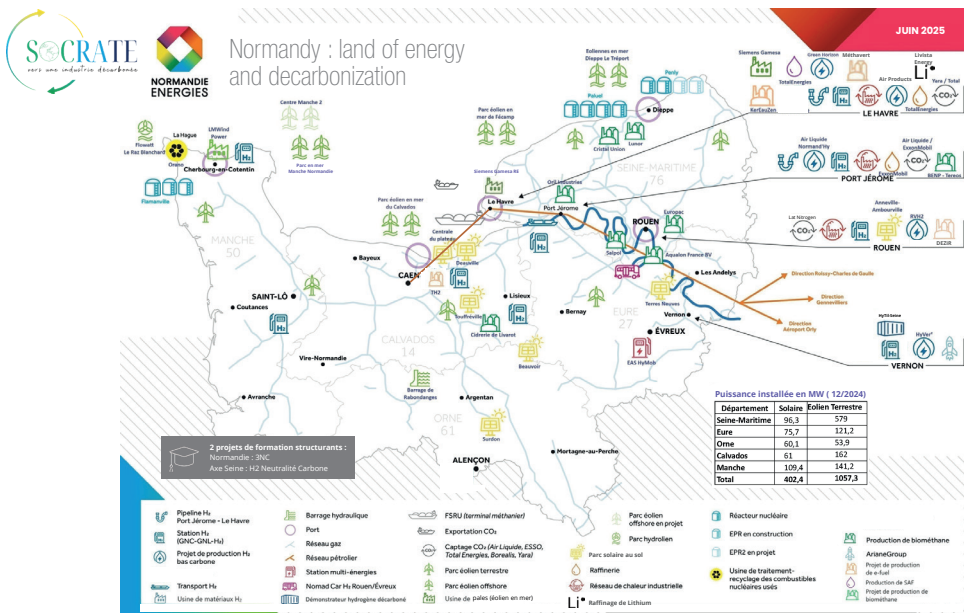

FRANCE'S LEADING PORT FOR CHEMICALS, PETROCHEMICALS & ENERGY

- Available land for **new industrial developments** within HAROPA PORT's estate
- Infrastructure and facilities for **specialized container transport** (tank containers, isotanks), dry bulk, liquid bulk, and pipeline transfer of petroleum products

HIGH-PERFORMANCE, DEDICATED SERVICES

- **Specialized storage operators for hazardous and non-hazardous liquid, dry or containerized goods**
- **Multiformat packaging** services: bags, drums, heating, analysis, tank and container cleaning, etc
- **Tailor-made logistics solutions**: handling services, logistics providers, and dedicated chemical and petrochemical transporters

A FORWARD-LOOKING SEINE AXIS ECOSYSTEM DRIVING INDUSTRY TRANSFORMATION AND DECARBONIZATION
