

The Seine axis' solutions for eco-Industry and recyclable products

**HAROPA
PORT**
Le Havre
Rouen
Paris

THE ADVANTAGES

Collection and recovery

Extensive inland waterway network

Hazardous waste treatment

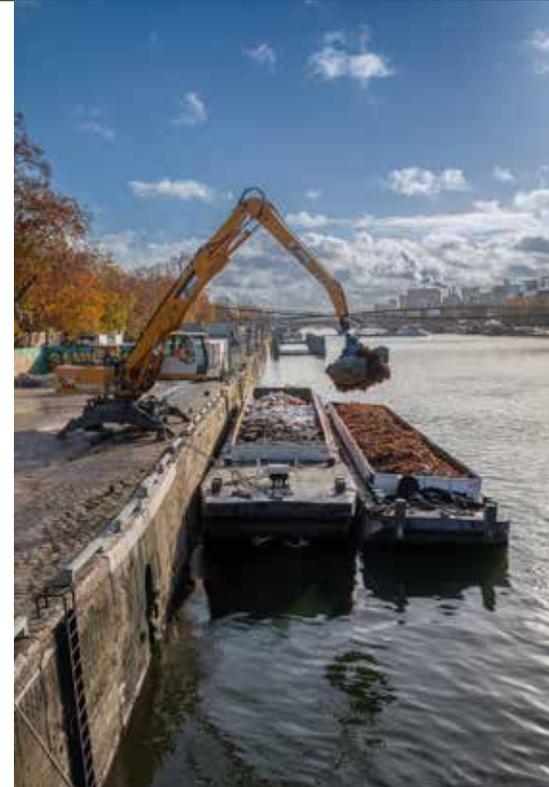

Dedicated infrastructure

Low-carbon transport

HAROPA PORT, A KEY PLAYER IN THE CIRCULAR ECONOMY

- Nearly **6 million tonnes of recyclable materials** transit each year along the Seine Axis.
- A **cluster of leading industrial and recycling companies** located along the Seine corridor.
- A **gateway to European and international markets** through our maritime terminals.
- Dedicated infrastructure supporting **every stage of the recovery value chain**:
 - **Collection** of separately sorted waste,
 - **Collection** of hazardous waste,
 - **Treatment and disposal** of non-hazardous waste,
 - **Construction** waste recycling,
 - **Recovery** of sorted waste materials,
 - **Preparation and shipment of recycled materials** to industrial sectors in France and abroad.

A SECTOR WITH STRONG GROWTH POTENTIAL

- **Household waste, hazardous waste, metals, construction waste, industrial waste, plastics...** more than 1,500 recovery and recycling stakeholders operate along the Seine Axis.
- **HAROPA PORT's land offer** enables companies to:
 - Develop their activities on **tailor-made derisked industrial sites**,
 - Benefit from direct **connections to port infrastructure and a multimodal transport network**,
 - Access essential **industrial utilities** (power, gas, water, etc.).

INLAND WATERWAY TRANSPORT: GREEN LOGISTICS FOR YOUR GOODS

- Our port infrastructure along the Seine Axis **serves collection and recovery sites** close to population centres and economic activities.
- The Seine River offers more than **200 km of large-gauge navigable waterways**.
- Inland waterway transport provides a **greater carrying capacity** than other modes, from 300 to 5,000 tonnes per trip.
- HAROPA PORT offers **shared-use quays within Île-de-France** for bulk and container transport.
