

My KPIs - port performance measurement module - cited as a success story by Microsoft

► October 2020

My KPIs

The new dynamic decision-making module created by HAROPA & SOGET, is featured in Microsoft's latest Customer Story.

HAROPA offers Dynamic KPI tools for port users in Europe with the help of SOGET and Microsoft Azure

► [Discover here](#) the complete Microsoft Customer Story.

As a reminder:

My KPIs, a first in the European ports environment

- Business intelligence tool **developed by SOGET** according to the needs expressed by HAROPA
- **100% Microsoft** technology base - SOGET being Microsoft gold partner since 2011
- Module **provided by HAROPA** to S)ONE users on the Seine axis

Monthly statistics of the containerized logistics flows:

- Imports & exports' logistics, administrative and commercial milestones
- All modes / road / river / rail
- Tracking of dry / reefer / dangerous containers
