3D modeling of the project

►► New services at the Gonfreville Road Centre

Installation of a free-access sanitary block

Commissioning at the end of August of a PRIMAGAZ NGV station

- 2 island dispensers with 1 CNG pump and 1 LNG pump
- 2 other NGV stations (LNG/CNG) - ENGIE and TOTAL - are expected to be installed in the industrial port area of Le Havre in the first half of 2021.

Click to locate the PRIMAGAZ NGV station

►► New: early announcement of the manoeuvres of movable structures in the port area

'Imminent closing' message displayed ~5 minutes in advance

- on variable message signs
- in the 'predictive bridges' page of the [S-Wing 3D app](#)

►► And always, find WAZE, the HAROPA partner for mobility in the industrial port area

- movements of movable structures and bridges
- reported incidents and slowdowns
- road works and closures
